

FLIPLOCK LTD.

IF YOU HAVE SMALL BUNDLE APPLICATIONS TO STRAP, USE FLIPLOCK'S STRAPPING SYSTEM.

- The buckle retains the applied tension.
- Many applications can be tensioned sufficiently by hand.
- Successfully replaces Steel Strapping.
- For added strength two or three straps can be placed or a single strap double or triple wrapped.
- UK Produced
- Lightweight
- Waterproof – rust staining eliminated
- Does not damage product
- Product protection not needed
- Economical tooling – no maintenance
- Safe to apply – protection gloves not required
- Shock proof
- Cost effective / Highly competitive
- Application equivalent to Pusher Bar system use with steel strapping
- Quick application – especially if hand applied
- The buckle can be re-used
- Recyclable (environmentally friendly)
